COMBUSTION, Volume Eighteen, July 1946 through June 1947

## EDITORIALS—

|                                                         | PAGE          |
|---------------------------------------------------------|---------------|
| A Fundamental Approach.....                             | Oct. 1946 29  |
| A Worthwhile Report.....                                | Sept. 1946 27 |
| Census Data.....                                        | Apr. 1947 27  |
| Combustible in Stack Discharge.....                     | Aug. 1946 25  |
| Costly Insurance.....                                   | Jan. 1947 23  |
| Distribution of Coal Costs.....                         | May 1947 27   |
| Economy Drive Squeezes Research.....                    | May 1947 27   |
| Electric Output Indicates Substantial Production.....   | Sept. 1946 27 |
| Engineers in Public Life.....                           | Dec. 1946 31  |
| Five-Day Week Aids Maintenance.....                     | Apr. 1947 27  |
| Fuel Costs vs. Atomic Power.....                        | Mar. 1947 25  |
| Measuring Furnace Performance.....                      | Apr. 1947 27  |
| Nationalization of Electrical Supply in Britain.....    | Feb. 1947 29  |
| Natural Gas to the Eastern Seaboard.....                | Mar. 1947 25  |
| Need for Scrap Critical.....                            | Aug. 1946 25  |
| New British and American Steam Capacities Compared..... | May 1947 27   |
| New York City Tackles the Soot Problem.....             | Feb. 1947 29  |
| Nuclear Research for Power Generation.....              | Nov. 1946 29  |
| Offsetting Increased Fuel Costs.....                    | Sept. 1946 27 |
| Off to a Good Start.....                                | Jan. 1947 23  |
| Oil Pipe Lines for Transporting Natural Gas.....        | July 1946 21  |
| Oil Users Face Curtailment.....                         | June 1947 29  |
| Pipe Line Disposition.....                              | Dec. 1946 31  |
| Power Show.....                                         | Nov. 1946 29  |
| Prices vs. Production.....                              | Oct. 1946 29  |
| Pulverized Coal in Britain.....                         | June 1947 29  |
| Recurrent Coal Disturbances.....                        | Nov. 1946 29  |
| Reheat Again Being Considered.....                      | Mar. 1947 25  |
| Silica Turbine Deposits.....                            | Oct. 1946 29  |
| Surplus Property for Educational Use.....               | July 1946 21  |
| Sustained Performance.....                              | Jan. 1947 23  |
| Where Data May Be Confusing.....                        | Aug. 1946 25  |
| World Power Conference Meetings Revived.....            | June 1947 29  |

|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|
| Acid Cleaning of Boilers and Auxiliary Equipment, A.S.M.E. Semi-Annual Meeting at Detroit. By S. T. Powell.....                                                                                                                                                                                                                                                                                                                                                                                           | July 1946 28  |
| A 5000-Kw Standard Power Plant. By Frank J. Ruden and A. Matiuk.....                                                                                                                                                                                                                                                                                                                                                                                                                                      | Sept. 1946 45 |
| A.S.M.E. Annual Meeting—Horizontal Cyclone Burner; Determination of Moisture Content of Coal by Means of Pulverizer Heat Balance; Application of Coal-Burning Equipment; Fuel Reserves; Factors in Smoke Abatement; Further Graphitization Studies Reported; Corrosion-Erosion of Boiler-Feed Pumps and Regulating Valves; Internal Corrosion of Furnace and Boiler Tubes; Effect of Repeated Acid Cleaning on Boiler Metal; Steam Turbines for High-Powered Combatant Ships; Flue-Gas Recirculation..... | Dec. 1946 37  |
| A.S.M.E. Fall Meeting at Boston—Twenty Years of Progress in Industrial Oil Firing; Packaged Boilers; Single-Retort Underfeed Stokers; Atomic Energy.....                                                                                                                                                                                                                                                                                                                                                  | Oct. 1946 47  |
| A.S.M.E. Semi-Annual Meeting at Detroit—Nuclear Energy; Acid Cleaning of Boilers; Automatic Air Soot Blowers; Burning Low-Grade Midwestern Coals on Continuous-Discharge Spreader Stoker; Boiler for Extreme Load Variations; Accomplishments of the National Fuel Efficiency Program; German Practice in Use of Coal; Control of Size Consist of Coal with Traveling-Grate Stokers; Terminal Velocity for Measuring Dust; Smoke Abatement Panel Discussion; Nominations.....                             | July 1946 27  |
| A.S.M.E. Semi-Annual Meeting to Stress Fuel and Power.....                                                                                                                                                                                                                                                                                                                                                                                                                                                | May 1947 47   |
| Application of Coal-Burning Equipment, A.S.M.E. Annual Meeting. By J. E. Tobey, W. H. Rowand, John Van Brunt, Ollison Craig, T. A. Marsh, Carl E. Miller, F. W. Argue and Martin Frisch.....                                                                                                                                                                                                                                                                                                              | Dec. 1946 38  |
| Application of State Workmen's Compensation to Power Plants. By Leo T. Parker.....                                                                                                                                                                                                                                                                                                                                                                                                                        | May 1947 45   |
| A Theory of Carryover. By A. R. Mumford.....                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Feb. 1947 39  |
| Atomic Energy, A.S.M.E. Fall Meeting at Boston. By A. C. Klein.....                                                                                                                                                                                                                                                                                                                                                                                                                                       | Oct. 1946 51  |
| Atomizing vs. Tray-Type Deaerators. By E. J. Bookout.....                                                                                                                                                                                                                                                                                                                                                                                                                                                 | Apr. 1947 37  |
| Automatic Air Soot Blowers, A.S.M.E. Semi-Annual Meeting at Detroit. By H. L. Smith.....                                                                                                                                                                                                                                                                                                                                                                                                                  | July 1946 29  |
| Boiler for Extreme Load Variations, A.S.M.E. Semi-Annual Meeting at Detroit. By M. H. Kuhner.....                                                                                                                                                                                                                                                                                                                                                                                                         | July 1946 30  |
| Burning Low-Grade Midwestern Coals on Continuous-Discharge Spreader Stoker, A.S.M.E. Semi-Annual Meeting at Detroit. By John M. Drabelle.....                                                                                                                                                                                                                                                                                                                                                             | July 1946 29  |
| By-product Steam Supplements Chemical Recovery in Pulp Making. By A. L. Hamm.....                                                                                                                                                                                                                                                                                                                                                                                                                         | Sept. 1946 37 |

| Smith, H. L., and T. J. Finnegan— <i>Determination of Moisture Content of Coal by Means of Pulverizer Heat Balance</i> , A.S.M.E. Annual Meeting.....                                                          | Dec. 1946 37  |
| Smoot, C. H.— <i>Central-Station Combustion Control Problems</i> , Midwest Power Conference.....                                                                                                               | Apr. 1947 29  |
| Sommerfield, Earle M.— <i>Hammermill Bond Extends Its Power Plant</i> .....                                                                                                                                    | May 1947 28   |
| Straub, F. G., L. E. Hankison, M. D. Baker, E. H. Mitsch and B. J. Yeager— <i>Internal Corrosion of Furnace and Boiler Tubes</i> , A.S.M.E. Annual Meeting.....                                                | Dec. 1946 44  |
| Thieman, Vincent, and E. Robert de Luccia— <i>Hydro and Steam Power</i> , Midwest Power Conference.....                                                                                                        | Apr. 1947 34  |
| Tobey, J. E., W. H. Rowand, John Van Brunt, Ollison Craig, T. A. Marsh, Carl E. Miller, F. W. Argue and Martin Frisch— <i>Application of Coal-Burning Equipment</i> , A.S.M.E. Annual Meeting.....             | Dec. 1946 38  |
| Van Brunt, John, J. E. Tobey, W. H. Rowand, Ollison Craig, T. A. Marsh, Carl E. Miller, F. W. Argue and Martin Frisch— <i>Application of Coal-Burning Equipment</i> , A.S.M.E. Annual Meeting.....             | Dec. 1946 38  |
| Wagner, H. A., J. M. Decker and J. C. Marsh— <i>Corrosion-Erosion of Boiler-Feed Pumps and Regulating Valves</i> , A.S.M.E. Annual Meeting.....                                                                | Dec. 1946 43  |
| Warren, G. B., and T. W. Howard— <i>Removal of Deposits from Steam-Turbine Steam Passages</i> .....                                                                                                            | Oct. 1946 43  |
| Warren, G. B.— <i>Steam Turbines for High-Powered Combatant Ships</i> —A.S.M.E. Annual Meeting.....                                                                                                            | Dec. 1946 46  |
| White, A. E., J. J. Kanter, E. L. Hopping, W. G. Conant, W. A. Reich, S. L. Hoyt, A. M. Hall, I. A. Rohrig and Arthur McCutchan— <i>Further Graphitization Studies Reported</i> , A.S.M.E. Annual Meeting..... | Dec. 1946 41  |
| Wilcoxon, L. S., A. E. Grunert and L. Skog— <i>Horizontal Cyclone Burner</i> , A.S.M.E. Annual Meeting.....                                                                                                    | Dec. 1946 37  |
| Winne, H. A.— <i>Proposed Atomic Power System</i> .....                                                                                                                                                        | Aug. 1946 35  |
| Yeager, B. J., L. E. Hankison, M. D. Baker, E. H. Mitsch and F. G. Straub— <i>Internal Corrosion of Furnace and Boiler Tubes</i> —A.S.M.E. Annual Meeting.....                                                 | Dec. 1946 44  |
| Yellott, J. I., L. N. Rowley, B. G. A. Skrotzki and Paul R. Sidler— <i>Gas Turbines</i> , Midwest Power Conference.....                                                                                        | Apr. 1947 35  |
| Zerban, A. H.— <i>Short Cut in Vapor Calculations</i> .....                                                                                                                                                    | Jan. 1947 37  |
| Zuccari, G. Coppa— <i>Coal Problem in Italy</i> .....                                                                                                                                                          | Feb. 1947 46  |

## REVIEW OF NEW BOOKS—

|                                                                                                                |              |
|----------------------------------------------------------------------------------------------------------------|--------------|
| Applied Atomic Power. By Edward S. C. Smith, A. H. Fox, R. Tom Sawyer and H. R. Austin.....                    | Feb. 1947 50 |
| Atmospheric Weathering of Corrosion-Resistant Steels. Published by American Society for Testing Materials..... | June 1947 50 |
| Chemical Analysis of Metals. Published by the American Society for Testing Materials.....                      | Nov. 1946 47 |
| Chemical and Technical Dictionary. Edited by H. Bennett.....                                                   | June 1947 50 |
| Elementary Heat Power. By H. L. Solberg, O. C. Cromer and A. R. Spalding.....                                  | Dec. 1946 63 |
| Explosion and Combustion Processes of Gases. By Wilhelm Jost. (Translated by Huber O. Croft.).....             | Dec. 1946 63 |
| Fuels, Combustion and Furnaces. By John Griswold.....                                                          | Nov. 1946 47 |

|                                                                                                       | PAGE         |
|-------------------------------------------------------------------------------------------------------|--------------|
| Heating and Air Conditioning—Sixth Edition. By J. R. Allen, J. H. Walker and J. W. James.....         | Dec. 1946 63 |
| Hydraulic Measurements—Second Edition. By Herbert Addison.....                                        | June 1947 50 |
| Specification for Steel Piping Materials. Compiled by the American Society for Testing Materials..... | Feb. 1947 50 |
| Steam Power Plant Auxiliaries and Accessories. By Terrell Croft. (Revised by D. J. Duffin.).....      | Aug. 1946 45 |
| Steam Power Stations, Third Edition, 1946. By Gustaf A. Gaffert.....                                  | Feb. 1947 50 |
| Technical Dictionary—English French. By Francis Cusset.....                                           | June 1947 50 |
| Thermodynamics. By G. A. Hawkins.....                                                                 | Feb. 1947 50 |
| Water Treatment and Purification, Second Edition, 1946. By William J. Ryan.....                       | Aug. 1946 45 |

## CLASSIFIED INDEX—

### Acid Cleaning

|                                                                                                 |              |
|-------------------------------------------------------------------------------------------------|--------------|
| Acid Cleaning of Boilers, A.S.M.E. Semi-Annual Meeting at Detroit. By S. T. Powell.....         | July 1946 28 |
| Effect of Repeated Acid Cleaning on Boiler Metal, A.S.M.E. Annual Meeting. By H. C. Farmer..... | Dec. 1946 46 |

### Atomic Power

|                                                                                                                     |              |
|---------------------------------------------------------------------------------------------------------------------|--------------|
| Atomic Energy Discussed, A.S.M.E. Fall Meeting at Boston. By A. C. Klein.....                                       | Oct. 1946 51 |
| Nuclear Energy, A.S.M.E. Semi-Annual Meeting at Detroit. By H. G. Bowen, A. L. Baker and Senator Brien McMahon..... | July 1946 27 |
| Proposed Atomic Power System. By H. A. Winne.....                                                                   | Aug. 1946 35 |

### Boilers

|                                                                                                                                                           |              |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|
| Acid Cleaning of Boilers, A.S.M.E. Semi-Annual Meeting at Detroit. By S. T. Powell.....                                                                   | July 1946 28 |
| Boiler for Extreme Load Variations, A.S.M.E. Semi-Annual Meeting at Detroit. By M. H. Kuhner.....                                                         | July 1946 30 |
| Carryover Problems and Identification of Carryover Types. By P. B. Place.....                                                                             | Mar. 1947 29 |
| External Deposits on Boiler Heating Surfaces.....                                                                                                         | Mar. 1947 26 |
| Feed Distribution and Hunting in Marine Boilers. By H. Hillier.....                                                                                       | Jan. 1947 35 |
| Fuel Economy Affecting Boiler Design, A.S.M.E. Annual Meeting. By John Van Brunt.....                                                                     | Dec. 1946 38 |
| Further Topping at Sherman Creek—Part I—Steam Generation. By R. T. Roberts.....                                                                           | Jan. 1947 24 |
| Heat Recovery with Continuous Blowoff. By M. C. McKeown.....                                                                                              | Feb. 1947 43 |
| Internal Corrosion of Furnace and Boiler Tubes, A.S.M.E. Annual Meeting. By L. E. Hankison, M. D. Baker, E. H. Mitsch, B. J. Yeager and F. G. Straub..... | Dec. 1946 44 |
| Internal Corrosion of Furnace Tubes of High-Pressure Boilers. By R. C. Corey.....                                                                         | Mar. 1947 39 |
| New Utility Boilers.....                                                                                                                                  | May 1947 39  |
| Packaged Boilers, A.S.M.E. Fall Meeting at Boston. By Martin Frisch and H. H. Hemenway.....                                                               | Oct. 1946 48 |
